Master of Arts

INTERESTS

I have been creatively involved with video production since 2008, mostly as a **video director** on my own projects. Many of them were also written, shot and edited by me.

In the past few years, I am moving towards bigger productions, working as a **writer** or director. My advantage is a background in production of short movies, which allows me to write scripts that integrate all stages of production - from the pitch and shooting list to directing and editing. I frequently work as a production assistant, camera assistant or assistant director.

I have a **Master of Arts** degree in Visual Communication from Sabanci University, with a specific emphasize on film language. While In **Istanbul**, I have worked as a teaching assistant and researcher.

WHAT DO I DO

director	assistant director	production assistant
writer/copywriter	camera operator	sound recorder
producer	camera assistant	set photographer
