

LETTER OF RECOMMENDATION

I met Aljaz when he first came as Erasmus exchange student to Sabancı University. At that time, he took my Video and 3D modelling courses. Later on, he decided to come back, to pursue his graduate study at VAVCD program by furthering his practical research in video (cinematography, art direction and editing).

All VAVCD faculty member find Aljaz very hardworking and enthusiastic in his study. He has been a great assistant in all courses (3D, Video and Motion Graphics). Students find his direct, frankly speaking and open hearted attitude very helpful by sharing and showing them possible ways to solve their artistic and technical problem for their video and moving imagery projects. He is also a team player, where he helped and worked with students outside the campus. His positive spirit, consistency and responsible attitude in assistantship was a great contribution to our university.

Yoong Wah Alex Wong

Faculty of Arts and Social Sciences, Sabancı University
